HOW SENIOR LIVING COMMUNITY PARTNERED WITH ELLINGTON DIGITAL TO INCREASE LEADS

About Senior Living Community

Serving the Greater Los Angeles area for more than 130 years, they offers residents the ability to age in place in elegant apartments and, if needed, take advantage of Assisted Living, Memory Care or other Health Care Center services, all within a secure, gated, eight-and-a-half-acre garden campus.

While this senior living community has a rich history in helping men and women in the Los Angeles County live out the next chapter in their lives in a rewarding way, it faced several digital marketing challenges. This included developing a strong brand on social media, ranking well on search engines, and generating leads. This senior living community needed an affordable solution for their digital marketing needs. They needed someone to not only launch an effective online presence for them, but to use that presence to create real opportunities and drive results.

Overall Goals

- Holistic digital marketing strategy and funnel
- Create awareness
- Generate interest
- Drive conversions

Primary Tactics

- Full inbound marketing campaign
